

AI in Higher Education: From Models to Meaningful Practice

Salim Habib University's Quality Enhancement Cell (QEC), in collaboration with the Sindh Higher Education Commission (HEC), successfully organized a two-day training workshop on **"AI in Higher Education: From Models to Meaningful Practice"** from **13–14 May 2026** at Auditorium A, SHU. The workshop explored the growing role of Artificial Intelligence in higher education, focusing on practical, ethical, and outcome-driven applications in teaching, learning, research, and academic administration.

The sessions were conducted by **Prof. Dr. Zulfiqar Ali Memon** (FAST-NUCES Karachi), **Dr. Muhammad Atif Tahir** (IBA Karachi), and **Dr. Murk Marvi** (NEDUET), who shared valuable insights on integrating AI technologies into academic environments. The event was graced by **Prof. Dr. Irfan Hyder**, Vice Chancellor, and **Syed Waqar ul Hasan**, Director QEC & Regulatory Affairs, Salim Habib University, reflecting SHU's commitment to innovation, quality enhancement, and future-ready education practices.
