

SALIM HABIB UNIVERSITY

Tariq Amin Library Resource Center

Digital Library User Guide

The following steps must be followed in order to access books from the digital library.

Step 1: Open www.shu.edu.pk and hover the cursor over “SHU Library (OPAC)”. Click on “SHU Library OPAC” as indicated.

The screenshot displays the Salim Habib University website. At the top, a red navigation bar contains links for Newsletter, Convocation Booklet, 360° Virtual Tour, Career Opportunities, and FAQs. Below this, a white header bar shows the university's name and a main navigation menu with links to SHU, Academics, Admissions, Student Affairs, QEC, CP&ILO, and SHU Portals. The SHU Portals dropdown menu is open, highlighting the SHU Library (OPAC) link with a red arrow. The main content area features the university's name in large red letters, a banner for Spring 2024 Admissions for Undergraduate Programs, and a list of programs including BS Computer Science, Doctor of Pharmacy, BE Biomedical Engineering, BS Biosciences, BS Microbiology, BS Supply Chain Management, BS Actuarial Science & Risk Management, BS Accounting & Finance, BBA, BS Business Analytics, and BS Fintech. A red button labeled 'APPLY ONLINE' and the website URL 'www.shu.edu.pk' are visible. A WhatsApp contact number is also provided. The footer contains various announcements and dates.

New Arrivals

Step 3: A digital library resource center login page will open in a new window.

The Faculty / Student will be required to enter their SHU User ID along with the password: **“changeme”**. A new password can be set by the student / faculty if they desire to.

The image shows a login page for the 'Library Resource Center'. At the top center is a blue icon of an open book. Below the icon, the text 'Library Resource Center' is displayed in a bold, blue, sans-serif font. Underneath the title, there are two input fields. The first field is for the 'username', indicated by a small person icon on the left and the placeholder text 'username'. The second field is for the 'password', indicated by a small key icon on the left and the placeholder text 'password'. Below these fields are two blue buttons. The top button is labeled 'Log In' in white text. The bottom button is labeled 'Forgot Password' in white text. The entire login form is set against a white background with a subtle pattern of blue lines.

Step 3: Homepage of Digital Library will appear. Click on **“E-Books”** on the left panel of in the menu bar.

Applied Physical Pharmacy

ISBN: 9781260452211
Author(s): Mobley, W. Cary
Kiosk: Pharm. D
Category: Reference
Physical Description: x, 271 p. ; ill..
Publication Details: New York: McGraw Hill, 2019.
Subject: Pharmaceutics
Frequency:

Summary

A complete practice-oriented introduction to physical pharmacy Written to clearly and simply explain how drugs work, this textbook explores the fundamental physicochemical attributes and processes important for understanding how a drug is transformed into a usable product that is administered to a patient to reach its pharmacological target, and then exists the body. Applied Physical Pharmacy, Third Edition begins with a review of the key biopharmaceutics concepts of drug liberation, absorption, distribution, metabolism, and excretion. These concepts, and others, set the framework for the subsequent chapters that describe physicochemical properties and process related to the fate of the drug. Other physical pharmacy topics important to drug formulation are discussed in the chapters that follow, which describe dispersal systems, interfacial phenomena, and rheology. The textbook concludes with an overview of the principles of kinetics that are important for understanding the rates at which many of the processes discussed in previous chapters occur. Chapters in this Third Edition retain the acclaimed learning aids of previous editions, including Learning Objectives, Practice Problems, Key Points, and Clinical Questions. In order to be of greater value to the pharmacy student, more clinical questions have been added, and many tables have been updated with more current products and excipients.

Content Note

Chapter 1: Introduction to Biopharmaceutics Chapter 2: States of Matter Related to Pharmaceutical Formulations Chapter 3: Physical Properties of Solutions Chapter 4: Ionic Equilibria and Buffers Chapter 5: Solubility, Dissolution, and Partitioning Chapter 6: Mass Transport Chapter 7: Complexation and Protein Binding Chapter 8: Dispersed Systems Chapter 9: Interfacial Phenomena Chapter 10: Rheology Chapter 11: Chemical Kinetics of Pharmaceuticals Appendix: Basic Mathematical Concepts
